Bryan by voting to ratify threw aside all other considerathe treaty. Because he did this, a certain newspaper element has been with malice aforethought, withholding from the people what McLaurin is doing in the Senate, and reproducing one from another, all of the disparaging things said about him. Had McLaurin used the language attributed to Tillman, "I am willing to trust William McKinley,' or "He is a patriot and noble man," every one of these hidebound anti-treaty newspapers would have been full of special attention to "Republican tendencies." Tillman and McLaurin differ on the Philippine question. Tillman is opposed to it solely on political grounds, McLaurin favors it, because he believes it to be an opening up of new markets for Southern products. He believes that an entry into a warm climate, means the increasing of the demands for what is raised and manufactured in the South, and that the Southern farmer, merchant and laborer will be benefited. McLaurin views the matter from a practical business standpoint, and notwithstanding the fact the Democratic party has not declared on this question, some Democrats would have it appear; that whoever has the temerity to agree with the present administration, is a Republi- and use Chamberlain's Colic. # Hood's Sarsaparilla

It Cures Scrofula, Dyspepsia, Nervousness.

SGROFULA AND ITS AWFUL HORRORS

Johnston's Sarsaparilla

QUART BOTTLES.

A MOST WONDERFUL CURE.

A Grand Old Lady Gives Her Experience.

Livingston Co., Mich. This venerable and highly respected lady was born in the year 1812, the year of the great war, in Hebron, Washington Co., New

York. She came to Michigan in 1840, the year of "Tippecanoe and Tyler All her faculties are excellently preserved, and possessing a very re-

tentive memory, her mind is full of interesting reminiscences of her early

life, of the early days of the State of Michigan and the interesting and re markable people she has met, and the stirring events of which she was a wit-

ness. But nothing in her varied and manifold recollections are more mar-velous and worthy of attention than are her experiences in the use of

JOHNSTON'S SARSAPARILLA. Mrs. Hurd inherited a tendency and predisposition to scrofula, that terribly destructive blood taint which has cursed

and is cursing the lives of thousands and marking thousands more as vic-

tims of the death angel. Transmitted from generation to generation, it is

pearance in dreadful running sores, in unsightly swellings in the neck or

goitre, or in eruptions of varied forms. Attacking the mucous membrane, it may be known as catarrh in the head, or developing in the lungs it may be.

with a bad skin disease. My arms and limbs would break out in a mass of sores, discharging yellow matter. My neck began to swell and became very

unsightly in appearance. My body was covered with scrofulous eruptions.

My eyes were also greatly inflamed and weakened, and they pained me very

much. My blood was in a very bad condition and my head ached severely at frequent intervals, and I had no appetite. I had sores also in my ears. I was in a miserable condition. I had tried every remedy that had been recom-

mended, and doctor after doctor had failed. One of the best physicians in

the state told me I must dle of scrofulous consumption, as internal abcesses

were beginning to form. I at length was told of Dr. Johnston, of Detroit, and his famous Sarsaparilla. I tried a bottle, more as an experiment than any-

thing else, as I had no faith in it, and greatly to my agreeable surprise, I

began to grow better. You can be sure I kept on taking it. I took a great many bottles. But I steadily improved until I became entirely well. All the

sores healed up, all the bad symptoms disappeared. I gained perfect health.

and I have never been troubled with scrofula since. Of course an old lady

of 83 years is not a young woman, but I have had remarkably good health since then, and I firmly believe that JOHNSTON'S SARSAPARILLA is the

greatest blood purifier and the best medicine in the wide world, both for

scrofula and as a spring medicine." This remarkably interesting old lady did

not lok to be more than sixty, and she repeated several times, "I believe my
